REACH Statement

Eaton Bussmann Series is aware of REACH as the European Community Regulation on chemicals and their safe use.

The EC Regulation 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (“REACH Regulation”)

Therefore, Eaton Bussmann Series supports the underlying goals of REACH, which are consistent with our own commitment to promote the responsible manufacturing, use and handling of hazardous materials and substances. In this approach we can confirm that, to date, the following products (“articles” or “preparations”) may contain any of the substances of concern or exceed threshold level of 0.1% by weight (0.1w percent or 1000ppm) established by the candidate list of Substances of Very High Concern (SVHC) published on July 16, 2019 as approved by the European Chemical Agency (ECHA).

Bussmann Part Number	Part Number Description	Rev	SVHC Description	SVHC CAS No	Percentage in Article / Usage
-	Please see Attachement 1. IHS Markit Technology (Page 2 – 7)	-	-	-	-

The status of the candidate list will continue to be monitored, as established under Article 33 of REACH to inform product recipients and consumers if any substance or “preparations” of an “article” contains more than 0.1% by weight per article of any substance that is added to the SVHC candidate list in the future.

For additional information please contact,

Sergio Maldonado
RoHS & REACH Tech

US Phone (915) 400-0627
SERGIOMALDONADO@eaton.com

The current European Chemicals Agency (ECHA) SVHC candidate list is available at:
<https://echa.europa.eu/candidate-list-table>

Preparation means “a mixture or solution composed of two or more substances” (Article 3.2 REACH Directive).
Article means “an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition”
