REACH Certificate of Compliance

Eaton Electronics Division is aware of REACH as the European Community Regulation on chemicals and their safe use.

The EC Regulation 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (“REACH Regulation”)

Therefore, Eaton Electronics Division supports the underlying goals of REACH, which are consistent with our own commitment to promote the responsible manufacturing, use and handling of hazardous materials and substances.

In this approach we can confirm that, to our best current knowledge, we have no information available that any of the listed Substances of Very High Concern (SVHC) published on Jan 16, 2020 as approved by the European Chemical Agency (ECHA) is contained above 0.1% by weight (0.1w percent or 1000ppm) in the products attached to this declaration. However, should above mentioned status change or we retrieve information from our suppliers that any SVHC above 0.1% by weight is contained in products supplied to you, then we will inform you according to the requirements as outlined in the article 33.1 of the REACH regulation.
